Works for me.
If no objections, I'll send in the next few minutes.
Tom

Thoughts?

EPA is actively working with DNREC to ensure the residents will have access to long term safe drinking water. EPA and DNREC are reviewing ground water flow and monitoring data to determine the source of the nitrate in the residences' wells. EPA and DNREC are both committed and working collaboratively to find a solution to the contaminated wells.

Rick, Jim,
If we had one or two lines to address the question below, what would they be?
Thanks.
Tom

Kate/Tom/Janet --
I just got off the phone with Cosmo -- he would like for us to be able to address the question..."what should EPA tell the 75-80 residents/households?" Thoughts?

Joan,
I corrected a typo and made the Order on Consent language consistent. Please use this version. Thanks.
Tom

Joan,
Attached is an updated set of talking points for Mountaire.
They have been reviewed by Kate and staff.
If you have questions, please advise.
Thanks.
Tom
